

IT PM/Solutions Architect (with Apttus Experience)

Lead solution architect for McAfee's Legal Operations Team, responsible for operational readiness and expansion of McAfee Legal's contract lifecycle management solution (CLM), process automation platform and reporting/analytics processes. Research and recommend technology to improve the current systems in support of the Legal Department's strategic vision. Responsible for translating business requirements into specific systems, applications, data or process designs for very large, complex IT solutions and integrating architecture. Lead on architectural governance and decisions related to legal-supported workflow automations and analytics projects, working in collaboration with McAfee Sales Operations, IT teams, and other stakeholders.
